Subject: Microsoft Settlement

DOJ: As taxpayers and citizens of the US, we are frustrated by the ongoing legal battle waged by your department against Microsoft. It is time to move on. The proposed remedies are enough! Let's move on and spend our energies and resources on rebuilding our damaged nation, not on tearing down one of our most innovative companies. Let's use our resources, enriched by Microsoft and other technology-related companies, to take our country to the next level.

Accept the proposed settlement and encourage the hold-out states to do the same. Thank you, Callene Lumbard
